\* Japan Travel SIM is a data communication service for foreign travelers and temporary returnees to Japan. It cannot be paired with a Voice Call Function or SMS Function.

\* A SIM-free device compatible with eSIM is required. Additionally, the APN (Access Point Name) and other settings needed for communication must be separately performed on the device.

\* When purchasing Japan Travel SIM (eSIM) at the register, customers will be asked to choose their desired data communication capacity from seven total types: 3GB, 6GB, 10GB, 15GB, 25GB, 35GB and 55GB. After completing payment, by accessing a dedicated website in a Wi-Fi environment and entering the entry code on the back of the card and other required information, customers can download an eSIM profile and use data communication.
